CALDWELL LIFTING SOLUTIONS

DURA-LITE™ OR DURA-MOD®

THE RIGHT SOLUTION FOR EVERY LIFT.

Lightweight composite or high-capacity modularity: two complementary solutions to meet the demands of your operations.

COMPOSITE

DURA-LITE™

Strength without the weight of steel.

- + **LIGHTWEIGHT & EASY TO HANDLE**
Easier transport and setup.
- + **NON-CONDUCTIVE**
For areas with electrical hazards.
- + **CORROSION-RESISTANT**
Marine, humid or outdoor settings.
- + **TESTED & CERTIFIED**
Load tested; certificate supplied.

0.25 to 3 t CAPACITIES	0.6 to 3.7 m SPANS	Class 4
----------------------------------	------------------------------	----------------

MODULAR

DURA-MOD®

One system. Many configurations.

- + **CUSTOMIZABLE**
Sections combined to suit each project.
- + **2, 4 OR 6 POINTS**
For wide or bulky loads.
- + **SIMPLIFIED LOGISTICS**
Components can be taken apart and transported.
- + **SCALABLE INVESTMENT**
Reusable components.

6 to 600 t 2-POINT SYSTEMS	0.38 to 20.7 m OVERALL LENGTH*	2 • 4 • 6 LIFTING POINTS
--------------------------------------	--	------------------------------------

* Depending on the model, sling angle and configuration.

EVERY LIFT IS UNIQUE.

Our representatives help you choose the right capacity, span and configuration for your application and work environment.
