2000kg Capacity 2 metre Long Pallet Truck

Load Capacity	2000kg
Minimum Fork Height	85mm
Maximum Fork Height	200mm
Steering Wheels (PU)	180x50mm
Load Rollers (PU)	80x70mm
Fork Size (WxD)	160x37mm
Overall width across the forks	540mm
Fork length	2000mm
Net Weight	125kg

DBA20-540x2000 is a premium extra long pallet truck.

The capacity is larger than a standard 2 metre pallet truck and is 2000kg.

Dimensions across the forks are 540x2000mm, allowing you to lift longer than standard loads.

Strengthening units are placed on the back of the forks.

German sealing rings are used for a longer service life.

After assembly, the hydraulic units are static pressure tested before being completely sealed.

The pump is of an integral type, containing a completely sealed hydraulic circuit and oil tank - This helps solve the common problem of oil leaking out.

All centers of rotation are equipped with oil-free self lubricating bearings and injection nozzles, which helps to prolong the pallet trucks life.

Supplied with double PU (Polyutherane) rollers front and rear, with Nylon guide wheels at the front of the forks.

Conforms to EN ISO3691-5:2009
